

**EXPERIENCE, EXPERTISE,  
EXCELLENCE**

**The BRUBACHER DIFFERENCE**

Brubacher Excavating, Inc. is pleased to announce the addition of Pipe Fusion Services.

Pipe Fusion Services are available for:

- RESIDENTIAL
- CONSTRUCTION
- COMMERCIAL
- INDUSTRIAL

**Fused pipe is used by many municipalities, contractors and developers for water, sewer and gas.**

**FAST FACTS:**

The fused area of the pipe is 4 times stronger than the density of the pipe.

Fusing pipes decreases the likelihood for leaks in the future compared to other methods of joining pipes.

**ADVANTAGES**

- Fused pipes are joined permanently
- Increases production
- Fewer joints in pipe decreases likelihood of leaks
- Pipe comes in coils or sticks from 1/2" to 60" dia.

**Shaping  
the World  
We Live In...**

Our qualified staff is trained and experienced to fuse pipes from 1/2" to 36" in diameter.

We can provide sidewall, electrofusion and extrusion welding applications.

**EXPERIENCE**

**EXPERTISE**

**EXCELLENCE**
