

Directional Drilling Services

Directional Drilling

is ideal for the underground installation of utilities (gas, electric, water, telecommunication or soil remediation lines) without excavation or trenching!

Directional Drilling Services are available for:

- RESIDENTIAL
- COMMERCIAL
- CONSTRUCTION
- INDUSTRIAL
- AGRICULTURAL

What are the Benefits to Directional Drilling?

From everyday boring applications to the most demanding job sites, our Directional Drilling Services get the job done safely, efficiently and with minimal disruption to the surrounding area. Great for city installations, maneuvering around difficult terrain like riverbeds, and for sensitive locations like golf courses. Our equipment performs even in difficult drilling conditions — battling rock without the need for specialized machines!
